WG Advisory Services and EVA-Technologies announce the release of a cybersecurity maturity assessment module for encase™ - The Industry's First Cloud-based IT Strategic Planning Portal.

"A dynamic platform built on modern-cloud architecture"

TORONTO, ONTARIO--(Marketwired - May 29, 2022) - WG Advisory Services (WG), a leading provider of IT Strategic Planning, Business Continuity Management, Data Management Maturity, and Cloud Readiness Services, announced today that the company has formed a partnership with EVA Technologies (EVA), a leader in cybersecurity vulnerability, assessment, and avoidance technology.

In 2019, WG launched encase™, the industry's first cloud-based IT Strategic Planning portal. Using its interactive dashboard, customers can manage and track graphical scorecards and roadmaps created using output from WG IT Infrastructure Health Checks, Cloud Readiness Assessments, Data Management Maturity, Business Impact Analysis' (BIA), Risk Assessments (RA), and Disaster Recovery Strategies.

The integration with EVA is the first of its kind in the industry, providing organizations of all sizes unprecedented visibility and control of their cybersecurity posture.

A few of the key features will include:

- Industry expert driven risk identification process that yields immediate results
- Manageable and prioritized action items
- Clearly identified root causes that lead to security exposures
- Well defined continuous optimization plan
- Valuable knowledge transfer with key staff

"The need for sound cybersecurity risk practices is paramount in today's world of shared information, storage, and data" stated Gary J. Walker, Partner at WG.

Eric Parent, EVA-Technologies CEO added: "Knowing your current cybersecurity maturity combined with healthy constructive self-criticism is the only way to continuously optimize and improve on one's cybersecurity posture. The integration of our security assessment methodology within the WG Advisory encase portal will provide customers with a complete IT maturity platform."

WG Advisory Services continues to revolutionize the IT consulting industry with a dynamic platform built on modern-cloud architecture and flexible infrastructure. encase integrates and displays assessment data to strengthen IT operations while providing a seamless user experience. Adding the cybersecurity capabilities offered by EVA-Technologies will provide customers with a complete IT enterprise maturity program.

ABOUT WG ADVISORY SERVICES:

With offices in Toronto and New York, WG Advisory Services enables Canadian and US corporations to ensure IT technology and processes are delivering value to the business. Our expertise in the many layers of information technology, coupled with a strict focus on our customers business requirements, has made us unique in the industry. Our team of analysts work with the latest technology and closely monitor strategic trends and their potential for significant impact on the enterprise in the next 1 to 3 years.
